Question ID : 5861802160

Comprehension:

Read the given passage and answer the questions that follow.

What is instinct? If we were to believe the latest fashions in psychology we should reject it as a name for a non-existent thing; but when we find that those who have thrown instinct out of the door are dragging it back through the window as "unlearned response", we may be content to retain the old bottles for the old wine, and call with the plain name of instinct our inherited tendencies to walk and run, to eat and play, to fight or seek escape, to woo and wed, and love our children when they come.

These are useful economies of behavior, developed to meet, without the delays of deliberation, recurrent exigencies in the career of the race. But they adapt us only to these ancient and stereotyped situations; they were built up against the needs and background of our animal and hunting life; and though they serve us well when there is no time for thought,

they adapt us rather to yesterday than to today. By instinct "we fear not the carriers of malaria and yellow fever, but thunder and the dark; we pity not the gifted debarred from education, but the beggar's bloody sore; we are less excited by a great injustice than by a little blood; we suffer more from such scorn as untipped waiters show than from our own idleness, ignorance and folly". Instinct sufficed, perhaps, for the primitive life of the chase; it is to this, and not to tillage, that our natural impulses fit us, and for this that we long in our periodical and youthful desire to "return to nature". But ever since civilization began, instinct has been inadequate and life has called for reason.

Comprehension:

Read the given passage and answer the questions that follow.

In the later part of the 1990s the Universal Serial Bus (USB) was invented as a system of exchanging data from one storage place to another at a relatively fast speed. Today, about 10 billion USB devices are in use, a figure that even stuns its inventor Ajay Bhatt from Intel. USB has become a common name everywhere, from schools and offices to hospitals.

Ajay Bhatt was annoyed by the different types of connections that a PC had and looked for a simpler way of linking different parts of a computer. He tried to set up a uniform connection system for all PC parts and other devices. Although it was difficult for Bhatt to convince computer makers that he had a good idea, he finally got the approval to change a computer's extension system completely.

USB has many advantages. For one, a single port can control up to 128 devices at once. They are powered by themselves and you do not have to switch off a device to make USB work. A USB object installs itself. Just plug it in and the computer automatically downloads the software you need to make it work.

When the first USB devices hit the markets in the late 1990s they were an immediate success. Today's USB 3.0 standard is over 400 times faster than its original USB 1. Today's PCs and laptops have at least 3-4 USB ports. USB connectors can be found everywhere, on printers, digital cameras, mobile phones and tablets.

SubQuestion No : 16

Q.16 What was the level of impact of the invention of USB in the commercial world?

भारतीय इतिहास और संस्कृति 'वसुधैव कुटुंबकम्' की संस्कृति रही है। भारतीय साहित्य और इतिहास को तमाम संस्कृतियों ने संक्रमित किया लेकिन फिर भी हमारी संस्कृति अनेकता में एकता को संजोये हुए आगे बढ़ी। हड़प्पा मोहन जोदड़ो से लेकर आज तक यह अक्षुण्ण बनी हुयी है तो इसका एकमात्र कारण हमारी संस्कृति की समन्वय भावना ही है। सभी संस्कृतियों को अपने में समाहित करते हुए हम आज भी आगे बढ़ रहे हैं। शक, यवन, हूण, मंगोल चंगेज और अंग्रेज तक इस भारतीय संस्कृति को गाहे-बेगाहे प्रभावित ही नहीं किये बल्कि इसे परिवर्तित करने का असफल प्रयत्न भी किये। प्रत्येक आक्रमण और युद्धों की विभीषिका को झेलते हुए हम आज भी अपनी सांस्कृतिक विरासत को बचाये ही नहीं है बल्कि आज हम विश्व की महाशक्ति बनने के करीब हैं।

यथार्थवाद यथार्थ चित्रण के प्रति एक सामान्य और सहज रुझानमात्र न रहकर एक लक्ष्य है जो रचनाकार को अनुशासित करता है। उसे एक खास दिशा में आगे बढ़ने को प्रेरित करता है। यथार्थवादी रचनाकार अपने द्वारा चित्रित जीवन की स्थितियों के प्रति न केवल एक वस्तुमुखी दृष्टिकोण का आग्रही होता है, यह दावा भी करता है कि वह केवल ठोस तथ्यों का ही उपस्थापक या पुरस्कर्ता है। उसका सारा प्रयास इस ओर रहता है कि वह वस्तुस्थिति का चित्रण करते हुए निजी मान्यताओं, निर्णयों तथा दार्शनिक व्याख्याओं से प्रत्यक्षतः असंपृक्त रहते हुए जीवन के उस समूचे क्रिया-व्यापार में पाठक को यह अनुभव कराये कि वह भी इस समूचे क्रिया-व्यापार का सहज दर्शक या पाठक न होकर एक भागीदार है।
