The teacher will be responsible for effective classroom teaching, lesson planning, assessments and the overall academic development of students in accordance with the CBSE curriculum and applicable norms.

KEY RESPONSIBILITIES:

- Plan and deliver engaging Science and Mathematics lessons as per the CBSE curriculum.
- Explain concepts clearly using practical examples, activities and real-life applications.
- Develop students' logical reasoning, numerical ability, scientific temperament and problem-solving skills.
- Prepare lesson plans, worksheets, assignments, question papers and teaching-learning materials.
- Use activity-based, experiential and innovative teaching methodologies.
- Conduct experiments, demonstrations and practical activities wherever applicable.
- Integrate smart classrooms, digital resources and educational technology into teaching.
- Conduct regular class tests, assessments and examinations.
- Evaluate students' performance and provide constructive and timely feedback.
- Identify learning gaps and provide appropriate academic support to students.
- Encourage curiosity, questioning, critical thinking and independent learning.
- Maintain a positive, disciplined and inclusive classroom environment.
- Participate in PTMs, school activities, examinations and other academic responsibilities.
- Coordinate with parents and colleagues regarding students' academic progress.
- Ensure teaching and assessment practices are aligned with CBSE guidelines.

QUALIFICATION REQUIRED:

- B.Sc./M.Sc. from a recognized university.
- Candidates with B.Ed. in relevant subject will be preferred.
- CTET qualification will be an added advantage.

SKILLS & EXPERIENCE:

- Minimum 2–3 years of teaching experience preferred.; Freshers can apply
- Strong command of science and/or Mathematics concepts.
- Excellent communication and presentation skills.
- Strong classroom management and student-engagement abilities.
- Ability to simplify complex concepts for students of different learning levels.
- Proficiency in smart classrooms and digital teaching tools.
- Creative and innovative approach towards teaching.
- Ability to prepare quality worksheets, question papers and assessments.
- Strong analytical and problem-solving skills.
- Positive attitude, patience and commitment towards students.
