Correct Marks : 1

Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements.
Statements:
No beast is a ghost.
All ghosts are dolls.
No doll is a toy.
Conclusions:
(I): No ghost is a toy.
(II): All dolls can never be beasts.

Options :

1. ✖ Only conclusion (I) follows
2. ✖ Only conclusion (II) follows
3. ✖ Neither conclusion (I) nor (II) follows
4. ✔ Both conclusions (I) and (II) follow

Snell's law

Snell's law, in optics, a relationship between the path taken by a ray of light in crossing the boundary or surface of separation between two contacting substances and the refractive index of each. This law was discovered in 1621 by the Dutch astronomer and mathematician Willebrord Snell (also called Snellius). The account of Snell's law went unpublished until its mention by Christiaan Huygens in his treatise on light. In the Figure, n_1 and n_2 represent the indices of refraction for the two media, and θ_1 and θ_2 are the angles of incidence and refraction that the ray R makes with the normal (perpendicular) line NN at the boundary. Snell's law asserts that $n_1 \sin\theta_1 = n_2 \sin\theta_2$.

Using the formula,

$M_1D_1H_1 = M_2D_2H_2$

Where, M denotes number of people

D denotes number of days

H denotes hours

$(2m + 3w) \times 5 \times 7 = (4m + 4w) \times 7 \times 3$

$\Rightarrow 70m + 105w = 84m + 84w$

$\Rightarrow 21w = 14m$

$\Rightarrow 3w = 2m$

Now, apply , $M_3D_3H_3 = M_1D_1H_1$

$M_3 = 7m$, $D_3 = ?$ And $H_3 = 4$ hrs

$M_1 = (2m + 3w) = (2m + 2m) = 4m$ [$\because 3w = 2m$]

$D_1 = 5$ days and $H_1 = 7$ hours

Now, $7 \times D_3 \times 4 = 4 \times 5 \times 7$

$D_3 = 5$ days

Rakesh runs 4/3 times as fast as Mukesh. In a race, if Rakesh gives a lead of 60 m to Mukesh, find the distance from the starting point where both of them will meet.

Options :

1. ✖ 210 m
2. ✖ 220 m
3. ✖ 230 m
4. ✔ 240 m

Hints :

IC_BAT051021_GA_GQA_10th_KSR_MD_75 Clear Items_68 Items_Translation Template_P1E1
Since Rakesh runs 4/3 times as fast as Mukesh, in the time Mukesh runs 3meters, Rakesh will run 4 meters i.e., Rakesh gains 1 m for every 4 meters he runs.
Since he has given a lead of 60m, he will gain this distance by covering 4 x 60= 240m.
Hence they will meet at a point 240m from the starting point.

A man can row 7.5 km/h in still water. If the speed of the current is 2.5 km/h, it takes 3 hours more upstream than downstream for the same distance. The distance is:

Options :

1. ✖ 27km
2. ✔ 30km
3. ✖ 35km
4. ✖ 37.5km

Hints :

IC_BAT041121_GQA_10th_RV_MSD_60 Clear_Translation Template_P1E1
Let the distance = D km
The net speed along the stream= 7.5 + 2.5 = 10km/hr
The net speed against the stream 5km/hr
AS per the question we get D/5 – D/10= 3 or D= 30 km
(x/7.5-2.5) – (x/7.5+2.5) = 3
So, x/5 – x/10 = 3
2x – x = 30
x = 30 km.

Question Numbers : (151 to 155)

Read the given passage and answer the question that follows.
Artificial Intelligence refers to the intelligence of machines. This is in contrast to the natural intelligence of humans and animals. With the help of Artificial Intelligence, machines perform functions such as learning, planning, reasoning and problem-solving. Most noteworthy, Artificial Intelligence is the simulation of human intelligence by machines. It is probably the fastest-growing development in the World of technology and innovation. Furthermore, many experts believe AI could solve major challenges and crisis situations. First of all, AI has significant use in healthcare. Companies are trying to develop technologies for quick diagnosis. Artificial Intelligence would efficiently help to operate on patients without human supervision. Such technological surgeries are already taking place. Another excellent healthcare technology is IBM Watson. Artificial Intelligence in business would significantly save time and effort. There is an application of robotic automation to human business tasks. Furthermore, machine learning algorithms help in better serving customers. Chatbots provide immediate response and service to customers. AI can certainly make education more efficient. AI technology can discover the needs of students. Then, it can adapt according to their needs. AI tutors provide study help to students. Also, AI can automate grading which results in saving a lot of time. AI can greatly increase the rate of work in manufacturing. Manufacture of a huge number of products can take place with the aid of AI. Furthermore, the entire production process can take place without human intervention. Hence, a lot of time and effort is saved. Artificial Intelligence has applications in various other fields. These fields can be military, law, video games, government, finance, automotive, audit, art, etc. To sum it up, Artificial Intelligence looks all set to be the future of the World. Experts believe AI would certainly become a part and parcel of human life soon. AI would completely change the way we view our world. With Artificial Intelligence, the future seems intriguing and exciting.

Question Numbers : (156 to 160)

Read the given passage and answer the questions that follow.
Once upon a time there was a tree in the forest which had thin, pointed leaves. It felt sad when it saw the large, green leaves of the other trees swaying and rustling in the wind. “How unlucky I am!” it moaned. “If only God gave me leaves of gold, I could stand proud among my neighbours and shine with dazzling brilliance in the sun.” The next morning the tree stood transformed. It had leaves of gold. It looked around at the other trees and saw how envious they were. But when night fell, a greedy man crept close to the tree and plucked all the golden leaves, put them into a sack and stole away. “Oh, how unlucky I am”, the tree lamented again. “But perhaps I can have leaves made of glass. They will shine brighter than gold and no one will steal them.” The next morning the tree was again transformed. When the rays of the sun fell on the tree, they were reflected in all directions. The tree felt proud of its leaves. But that night there was thunder and lightning, and the wind blew violently and shook the tree. All its glass leaves were broken. “Bad luck, again”, sighed the tree. “Let me have beautiful green leaves like the other trees, but let mine be perfumed.” This wish was granted too, and the next day the whole forest was filled with sweet smell of its leaves. But within a few hours, goats from all around the forest gathered, drawn by the pleasant smell, and nibbled at the leaves until not a trace of green was left on the tree. “How foolish I have been”, said the tree sadly. “My own leaves are best for me, not any other. I’ve learnt my lesson.” The next day the tree stood covered once again with thin, pointed leaves. It felt as proud of its own leaves as the other trees felt of theirs.

Question Numbers : (191 to 195)

लोभ चाहे जिस वस्तु का हो जब वह बहुत बढ़ जाता है तब उस वस्तु की प्राप्ति, सानिध्य या उपभोग से जी नहीं भरता| मनुष्य चाहता है कि वह बार-बार मिले या बराबर मिलता रहे| धन का लोभ जब रोग होकर चित्त में घर कर लेता है, तब प्राप्ति होने पर भी और प्राप्ति की इच्छा बराबर बनी रहती है| जिससे मनुष्य सदा आतुर और प्राप्ति के आनंद से विमुख रहता है| जितना नहीं है उतने के पीछे जितना है उतने से प्रसन्न होने का उसे कभी अवसर ही नहीं मिलता| उसका सारा अंतःकरण सदा अभावमय रहता है| उसके लिए जो है वह भी नहीं है| असंतोष अभाव-कल्पना से उत्पन्न दुख है, अतः जिस किसी में यह अभाव-कल्पना स्वाभाविक हो जाती है सुख से उसका नाता सब दिन के लिए टूट जाता है| न किसी को देखकर वह प्रसन्न होता है और न उसे देख कर कोई प्रसन्न होता है| इसी से संतोष सात्विक जीवन का अंग बताया गया है|

Question Id : 63068066889 Sub Question Shuffling Allowed : Yes Group Comprehension Questions : No Calculator : None Response Time : N.A Think Time : N.A Minimum Instruction Time : 0

Question Numbers : (196 to 200)

सुभद्रा सुमन के रंग- रूप, बात पर ऐसी मोहित हुई कि उसे अपनी गाड़ी में बिठा लिया। वकील साहब कोचबाक्स पर जा बैठे। गाड़ी चली। सुमन को ऐसा मालूम हो रहा था कि वह विमान पर बैठी स्वर्ग को जा रही है। सुभद्रा यद्यपि बहुत रूपवती न थी और उसके वस्त्र भूषण भी साधारण ही थे, पर उसका स्वभाव ऐसा नम्र, व्यवहार ऐसा सरल तथा विनय पूर्ण था कि सुमन का हृदय पुलकित हो गया। रास्ते में उसने अपनी सहेलियों को जाते देखा, खिड़की खोल कर उनकी ओर गर्व से देखा, मानो कह रही थी, तुम्हें भी कभी यह सौभाग्य प्राप्त हो सकता है? पर इस गर्व के साथ ही उसे यह भी डर था कि कहीं मेरा मकान देखकर सुभद्रा मेरा तिरस्कार न करने लगे। जरूर यही होगा । यह क्या जानती है कि मैं ऐसे फटे हाल में रहती हूं। यह कैसी भाग्यवान स्त्री है! कैसा देव रूपी पुरुष है! यह ना आ जाते तो वह निर्दयी चौकीदार ना जाने मेरी क्या दुर्गति करता। कितनी सज्जनता है कि मुझे भीतर बिठा दिया और आप कोचवान के साथ जा बैठे! यह इन्हीं विचारों में मग्न थी कि उसका घर आ गया।
